

HL10

Handset Lifter Accessory

Answer Your Phone When You're Away From Your Desk

The must-have addition to your Plantronics® cordless headset system

The Plantronics HL10 automatic handset lifter enables one-touch call answer/end for compatible Plantronics headset systems.

Completes your cordless headset system. Enjoy the full mobility of cordless conversations. Roam around your workspace knowing that you'll be notified when a call is received—and you can answer and hang up whenever you choose.

Lifts handset and returns it to the cradle at the touch of a button. On most desktop phones, the HL10 lifts up and replaces the handset so you don't have to be at your desk to answer the phone or to hang up.

Takes up no desktop space. Because the HL10 fits under the handset on your desktop phone, it requires no additional space on your desktop, and the discreet, stylish design is backed by a one-year warranty.
